

An 'ESD Today, ESD Tomorrow' Tour & Networking Event

Sponsored by:

*The Engineering Society of Detroit (ESD) & ESD Institute
National Society of Black Engineers – Detroit Alumni Extension
Society of Hispanic Professional Engineers – Detroit Chapter
Society of Women Engineers - Detroit Section*

- Date:** Tuesday March 2, 2010
Time: 6:00 to 8:00 – Presentation & Tour first, then Networking & Snacks
Location: The Engineering Society of Detroit (ESD)
20700 Civic Center Drive, 4th Floor (Suite #450), Southfield, MI 48076
Cost: FREE for ESD, NSBE, SHPE or SWE Members
FREE for Future Members
RSVP* by: Wednesday February 24th to Jennifer at jpearson@esd.org

Enjoy an evening full of networking and fun! ESD will provide a 45-minute presentation from several key staff members of both ESD and ESDI. Network and learn more about the mission, programs, training, and community services. Plus, you will receive a quick tour of the wonderful member facility.

ESD unites engineers, scientists, architects, and those in related technical fields in a common goal – the advancement and promotion of the profession. Its programs and services are designed to serve the current generation of engineers, scientists and allied professionals, as well as to foster the growth of the next generation.

The Engineering Society of Detroit Institute (ESDI) was formed at the end of 2008 and follows the process modeling of the National Academy of Sciences in Washington, D.C. Through symposiums, the Institute invites diverse and often conflicting stakeholders into a problem-solving environment utilizing its facilitation and evaluation methods. This results in published reports of recommended solutions and in the formation of implementation workgroups. ESDI's focus is to find socio-economic unifiers and enablers for Michigan's turnaround.

NSBE's mission is "to increase the number of culturally responsible Black Engineers who excel academically, succeed professionally and positively impact the community." The purpose of the Alumni Extension is to support NSBE in a way that stimulates enthusiasm in the Black engineering community in order to promote technical expertise, professionalism, and fellowship among Black engineers.

SHPE is the Source for Quality Hispanic Engineers and Technical Talent. SHPE is the leading social-technical organization whose primary function is to enhance and achieve the potential of Hispanics in engineering, math and science.

Society of Hispanic Professional Engineers

SWE-Detroit's mission is "to provide meaningful programs and services to benefit our customers. The Society of Women Engineers stimulates women to achieve full potential in careers as engineers and leaders, expands the image of the engineering profession as a positive force in improving the quality of life, and demonstrates the value of diversity."
